

SAVE THESE INSTRUCTIONS

1. Read and observe all the important notices on the appliance.
2. If an extension cord is necessary, a cord with a proper rating should be used. A cord rated for less amperes or watts than the appliance rating may overheat. Care should be taken to arrange the cord so that it will not be tripped over or pulled.
3. The appliance is intended FOR HOUSEHOLD USE ONLY.
4. This appliance was designed for use over a glass aquarium cover or Panel. DO NOT USE OVER "OPEN" WATER.
5. Close supervision is necessary when any appliance is used by or near children.
6. To avoid injury, do not contact moving parts or hot parts such as heaters, reflectors, lamp bulbs, and the like.
7. Always unplug an appliance from an outlet when not in use, before putting on or taking off parts, and before cleaning. Never yank the cord to pull the plug from outlet. Grasp the plug and pull to disconnect.
8. Do not use an appliance for anything other than its intended use. The use of attachments not recommended or sold by the appliance manufacturer may cause an unsafe condition.
9. Do not install or store the appliance where it will be exposed to weather or temperatures below freezing.
10. Make sure an appliance mounted on a tank is securely installed before operating it.
11. Read and observe all the important notices on the appliance.
12. If an extension cord is necessary, a cord with a proper rating should be used. A cord rated for less amperes or watts than the appliance rating may overheat. Care should be taken to arrange the cord so that it will not be tripped over or pulled.
13. The appliance is intended FOR HOUSEHOLD USE ONLY.
14. This appliance was designed for use over a glass aquarium cover or Panel. DO NOT USE OVER "OPEN" WATER.

1. If the appliance shows sign of abnormal water leakage, immediately unplug it from the power source. If the appliance falls into the water, DO NOT reach for it! First unplug it and then retrieve it. If electrical components of the appliance get wet, immediately unplug it.
 2. Carefully examine the appliance after installation. It should not be plugged in if there is water on parts not intended to be wet.
 3. Do not operate any appliance if it has a damaged cord or plug, if it is malfunctioning or has been dropped or damaged in any manner.
 4. To avoid the possibility of getting wet, position aquarium stand and tank to one side of wall-mounted outlet to prevent water from dripping onto the plug or outlet. A drip-loop, shown in the figure below, should be arranged by the user for each cord connection of an aquarium appliance to an outlet. The drip-loop
- DANGER:** To avoid possible electric shock, special care should be taken following situations, do not attempt repairs by yourself; return the appliance to an authorized service facility for service or discard the appliance.

LIFE LIGHT

Double White LED

IMPORTANT SAFETY INSTRUCTIONS

SAVE THESE INSTRUCTIONS FOR FUTURE USE

INSTALLATION

Four options available for fitting the Life Light

- a. **Hood location with adhesive pads** – Attach the double sided adhesive pads to the flat surface of the LED. Fix the Life Light to the underside of the hood in the desired location – ensure the hood surface is flat, clean and dry. DO NOT attach directly to fluorescent lamps or lamp reflectors.
- b. **Hood location with screws** - Ensure the hood material is thicker than the length of the screws to prevent them from protruding through the outer surface. Place the Life Light in the desired location under the hood. Using the self-tapping screws provided, fix the LED in position using the fixing holes in the LED.
- c. **Hood location with glue** – Select desired location on the underside of the aquarium hood and mark the position of the LED. Keep the hood away from the aquarium while gluing the LED as the glue can be dangerous to the fish. Clean the marked area with a damp cloth then allow to dry, glue into the marked position on the aquarium hood.

An all-round plastic / wood glue is recommended for application. For example, a 502 super adhesive glue. Always follow the glue manufacturer's instructions.

- d. **Submersed in Aquarium with suckers** – Attach suckers provided to the brackets by sliding the button on the sucker into the slot in the bracket. Fit the bracket onto the Life Light and place into desired location in the aquarium (ensure that the LED push fit cable socket is not submersed) press suckers onto glass (to optimise adhesion clean the glass before applying the sucker).

SAFETY INSTRUCTIONS

CAUTION:

1. Before installation of this product, be sure to read and understand all safety instructions and warnings.
2. Always unplug this product before any inspection or disassembling for any reason.
3. DO NOT SUBMERSE THE PLUG OR CABLE SOCKET.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. 70164.

RECOMMENDED USE

Installation options

Option a) Deep & short aquariums for more intensive light.

(Aquariums up to 20 Gallons)

Option b) Narrow & long aquariums for even spread of light.

(Aquariums up to 20 Gallons)

MAINTENANCE

Switch the Life Light off and remove from the brackets – wipe off any dirt or salt mineral deposits with a damp cloth. Do not use cleaning agents that could enter the aquarium and harm your livestock.

1. Do not attempt to dismantle the product other than the instruction above as this voids your warranty. The information below should be followed to keep the product in good condition.
2. Read the manual carefully before operating the product. Make sure you use the product correctly.
3. Only use the adaptor supplied with the product.
4. Do not pull or twist the power cord, or move the product by holding the power cord only, as this will damage the power cord.
5. Make sure the power is disconnected before installing or cleaning.

WARRANTY

Interpet Limited warrants this product against defects in materials or workmanship for a period of 12 months from the date of original purchase. The warranty covers only any defects caused during normal use and operation of the LED, in accordance with the enclosed instructions.

If the product exhibits such a defect, Interpet limited will repair or replace it without cost for parts or labour. The product must be shipped pre-paid to Interpet Limited. Proof of purchase is required. This warranty does not apply to problems or damage caused by unauthorised modifications, misuse, improper or inadequate maintenance, accidents, or operations outside the product instructions or specifications.

All implied warranties, including any implied warranty of merchantability or fitness for any purpose, are limited to 12 months from date of original purchase.

The warranty service includes repair or replacement of the LED at the discretion of Interpet Limited. To the extent allowed by applicable law, in no event shall Interpet Limited or the manufacturer be liable for any direct, indirect, special, incidental or consequential damages, including loss of livestock, arising from a defect in this product.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply to you if you purchased the product in one of those states. This warranty provides specific legal rights. You may have other legal rights that vary from state to state.
